HELPING CHILDREN AFTER DISASTER

By International Presenter Jodi Mullen

DATE: 7 AUGUST 2017 TIME: 5.00 – 7PM (AWST) VIA CONFERENCE CALL Fee \$120

Children who experience disaster experience complex losses and traumas. This workshop will focus on helping children begin to heal after a disaster through play therapy. We will examine how disaster(s) impacts children, how to identify when a child is suffering, and how play therapists are well-suited to be partners to children as well as their families and communities when disasters happen.

This workshop will teach participants to:

1. Identify the multiple and varied losses experienced by children who have experienced disaster,
2. Recognize trauma symptoms in children,
3. Understand when and how to utilize developmentally sound helping interventions with children after a disaster.
